

WELCOME

Nutmeg & Clove

Presents

Singaporean interpretations of cocktails in the historical Ann Siang Hill area, which used to be a nutmeg and clove plantation.

These ingredients, together with other Asian flavours and spices, feature heavily in the menu and the bar's offerings are inspired by the different eras of Singapore's journey.

All these are not important if you didn't enjoy yourself,

So....

We have created a fun cocktail list while not forgetting the roots of the classics while maintaining a strong Singaporean influence of today.
